The purpose of this project:

- ★ To establish a partnership group that will promote common christian values among those involved: students, teachers, parents.
- ★ To promote dialogue and communication between students of the different institutions; to develop cooperation between teachers from the different learning institutions, harmonizing the specific conditions of each school with the general social demand.
- ★ Formation of students, in the sense of providing equal opportunities in education, for understanding the English language and christian morals, of personal development and community integration, of improving communication with students, of strengthening the christian, civil and community sense of belonging and continuation of studies.

Motivation:

The partners involved have material and human resources that can adapt to the requirements of today's society. In a society in flux, which operates changes of form and content in each of its subsystems, romanian learning system must assume a new perspective over its functioning and its evolution. Within this perspective, the educational partnership becomes a priority of the strategies toward the development of romanian education.

The goal of the educational partnership is the real transformation of students into active players in the education process, while reaching certain formative, informative and socio-behavioural objectives.

Objectives:

- to communicate in english of different topics;
- to foster an attentive, tolerant and civilised behavior;
- to gain in understanding, respect and tolerance toward people, regardless of religion, language of expression or ethnic group;

Target groups:

- ★ Students of Liceul Greco-Catolic „Inochentie Micu” Cluj-Napoca, guided by prof. Ileana CUC
- ★ Students of Colegiul Național „George Barițiu”, Cluj-Napoca guided by prof. Laura ZMICALĂ, andi prof. Vladimir BOGOSAVLIEVICI
